☞ **Gold Coin.**—Messrs. MOFFAT, & CO. announce to the people of California that they have constructed the requisite machinery, and secured the services of an experienced and skillful engineer from the United States Mint, and are about issuing a coinage of the denomination of five and ten dollars.

They design their coin shall be strictly and accurately in accordance with that of the United States Mint, in fineness, weight, color, value, and mechanical execution.

For their integrity, and ability to accomplish their intentions, they confidently refer to their credentials below.

All coin issued by them will be redeemable at their counter in silver.

New York, Feb 7, 1849.

We have the fullest confidence in Messrs. Moffat & Co.; and consider their genuine Assay-Stamp equal to the United States or London Mints, and would purchase as freely. SAMUEL J. BEEBEE,
BEEBEE, LUDLOW, & CO.

We, the undersigned, citizens of New York, have known Mr. John L. Moffat, of the late firm of Wilmarth, Moffat & Curtis, for many years.

Some of us have had frequent occasion for his services as an Assayer of Ores, and Gold and Silver, and we cheerfully unite in testifying to his superior skill and abilities as an Assayer and Metallurgist, his incorruptible integrity and trustworthiness, his high standing in his profession, and his uniform excellence as a man.

PACIFIC NEWS.

Saturday, October 6, 1849.

NAVAL.—The U. S. Ship St. Mary's, Z. F. Johnston Esq. Commander, arrived here on the 3d inst., after a cruise of five months; having visited Valparaiso and Callao. The run of this ship from our port to within a few hours sail of Talcahuana (the harbor which it was intended she should visit first) was, for the season of the year, a somewhat remarkable one, being only forty-seven days. But as she met, there, with a gale of wind, which detained her outside four or five days, thus losing much time, upon the weather moderating, she made the best of her way to Valparaiso. At this place she remained from the 5th until the 20th of July, when she sailed for Callao.

Between five and six o'clock on the evening of the latter day, the St. Mary's fell in with the American ship Flavius, which vessel had left Valparaiso on the previous day, for California. But, as her crew mutinied before she had been more than a few hours at sea, she was then on her return to the above named port to deliver these men over to the Consul and obtain others in their places. Captain Johnston, however, furnished her with a crew, under the charge of an officer, from his ship, taking the mutineers on board the St. Mary's, and the Flavius arrived here in safety on the 17th ult.

The St. Mary's left Callao on the 18th of August, after a visit of seventeen days. On the 27th, of the same month, in Lat 3 deg. 06 min. S. Long. 101 deg. 38 min. W., she spoke the American whale-ship Amethyst, of New Bedford, six weeks from Payta cruising for whales. On the night of the 5th of September, in Lat. 10 deg. N. Long 111 deg. 14 min. W., she was boarded by a boat from the Chilian ship Gen. Farrias, from this place, bound to Valparaiso, with ninety passengers on board, amongst whom a fever was prevailing.

After her departure from this place, last May, the crew of the St. Mary's suffered much with the scurvy; but a run on shore, both at Valparaiso and Callao, soon totally eradicated all semblance of that baneful disease from among them; and both the officers and men are, now, we are happy to say, in the enjoyment of excellent health.

Out of an absence of five months, the St. Mary's has been but a day or two over four weeks in port.

The above particulars have been kindly furnished us by an officer of the ship.

SUDDEN DEATH. Mr. Job Richardson, of Charlestown, Mass., died quite suddenly of an apoplectic fit, on the 3d inst. He came to California in the ship Charlotte, and since his arrival has indulged in intemperance until death put an end to his career as stated.

SUICIDE. We also learn that a man named Fuller, a passenger by the ship Charlotte, put an end to his own existence on the 3d inst. by cutting his throat. We believe that the above named individuals lived in tents near "Happy Valley." Such are the results, *not of California enterprise*—but of California *dissipation*.

P. S. Wonder if some indignant scribbler will not send us a communication denouncing in the strongest terms those who have encouraged emigration to California of the temperate and industrious, because of the above melancholy statements.

☞ We would call the attention of whomsoever it may concern, to the notice of the Commissioner of Streets and Landings, requiring them to remove forthwith, all boxes, bales, &c. &c. &c., laying on the wharves and in the public streets of the city. Great lenity has been shown on the part of our city officers towards those who have trespassed upon the rights of the public, but there is a time when forbearance ceases to be a virtue; and no one will have a right to complain if summary proceedings are commenced without delay, if longer postponement is indulged in by intruders.

☞ Simmons, Hutchinson & Co. have purchased the steam propeller McKimm which arrived here the 3d inst., with the intention of placing her on the river to run between this city and Sacramento. She has fine accommodations for passengers, and will meet a want which has been greatly felt by our community this season. She will probably make her first trip on Thursday, of the ensuing week. She has 60 berths in state rooms and can seat 80 passengers at her tables at once.

☞ We have frequently heard expressions of regret that no engraver on wood had thought proper to establish himself in this city. By an advertisement in to-day's paper, it will be seen that we are now furnished with an artist in this line—a gentleman from New York, whose work we have examined, and who we take pleasure in recommending to the public for business in the wood cut line or drafting.

STOCKTON, CAL.,
Sept. 26, 1849.

* * * But if there be any in San Francisco that are idling away their time, downcast and dejected, send them into "Uncle Sam's Banks," among the hills and mountains of the country.—There is employment a plenty for them there, and at good *prices*. The Banks discount very liberally, and every man is his own *master*. There he can work when he pleases, as long as he pleases, and as hard as he pleases, without being spurred up at every moment by his employer, or docked a half-day for one or two hours absence from labor. And besides, among the hills and mountains of the *southern* section of the mines, so far as my knowledge extends, it is the pleasantest and healthiest of the whole range of mineral land, if not of the whole country. I know nothing of the mines *up the Sacramento*, never having visited them since my arrival in the country, but hear them represented as being very *rich diggins*, AND QUITE UNHEALTHY. Health is better than gold in any country, that you know, as does every one else. Of what good is all the gold in the country to a man if he lose his health? Through the very warmest, and I may say the hottest, part of the season, I have been on the Tuolumne river, where mining at one time assumed rather a *dubious* aspect, but where *health* has been granted to all who have exercised proper care and attention to their *living*—especially to those who have not scrupled in having the very best *the market affords*. Some by stinting themselves in the proper eating, which in all cases is an invaluable remedy, are suffering either from symptoms of the *scurvy*, or from *it*, in its worst stages.—The river at one time was supposed to be rather *poor diggings*, but since the water has fallen sufficient to work it to better advantage, those engaged in mining there are doing first-rate. Probably *no diggings* of the southern mines, or San Joaquin district, are *richer* or *better*, than those on the Tuolumne river at the present time. Miners are doing first-rate, *there*, and I know of parties in the circle of my acquaintance in these diggings, that have been making from two to six ounces a day a-piece for several weeks. The intelligence has gone abroad into the other diggings, and not a day passes but hails the arrival of more or less old miners from other diggins. The river has been but little worked, and consequently there is room for them all. Great numbers that are there now are making their preparations to remain there through the winter. Wood's Creek, which has always been rich, though much worked, still holds good, and those who remain on the river through the winter, have an eye not singly alone to the river, but the creek also, which empties into the river near by the principal diggings. From the Moquelemas river I hear since my stay in this place, a very good report; from the Mariposa also, and indeed from all sections of the mines, this way, we are in the receipt of gratifying intelligence in respect to the *diggings*, and especially in regard to the health of the diggings; and let no man fool away his time in San Francisco, while the *chances* are open for bettering his financial condition. Tell them to kick *dull care* and the "*blues*" to the devil. The poorest that they may make out can't be worse than my first five days' labor at *gold digging*. I did n't make *one dollar* a day the whole five, but the sixth I got over *ten ounces*, and for every day spent in *gold digging* since, I made out quite satisfactorily. There is no use in surrendering at the first trial—*never say die*—but labor on, and a streak of luck will follow their efforts by-and-bye. I heard of one party that came on the Tuolumne river about six weeks since, and labored hard for one or two weeks, with poor success. They offered their effects for sale, with the determination to go below and seek employment. A gentleman offered to find them their provisions for half they dug, if they would remain and *mine* it. They accepted the offer, and were engaged to work *four* weeks on these terms. At the end of the four weeks they came to the conclusion that they could make more to work on their own hook, and consequently dissolved the arrangement. They have dug together for two or three weeks since, and had excellent success. One of them has already gone to San Francisco to take the next steamer for home, carrying away with him about two thousand dollars. But then all do not have so poor luck as they did at the commencement, nor so good as they did at the last. But all do well, and probably considerably better in a few week's time than they could in the States for years.

In this place there is no news of particular importance stirring. The mercantile part of the community are doing a very fair business, and *gambling* is rather on the *decline*. Since the hanging of some two or three here, this place has become quiet and peaceful. Law and order reigns supreme. The "powers that be" have but few cases "called up" for their decision and lawyers are loosing their "occupations." Yesterday, however, a case was tried before the Alcalde of the place. I do not know the names of the parties, but am informed that the defendant was arraigned for snapping a loaded pistol three times (one of Colt's revolvers) at the complainant. They had been playing *poker* together, and in the progress of the game a dispute arose, which led to words being given and passed, that were not liked by either of the parties, when the defendant drew and snapped his pistol at the complainant. The case was tried before his honor, and the defendant fined $500, and put under bonds of $5000 to keep the peace, to be kept in custody until the fine was paid, and bonds given. Further the deponent saith not.

In haste, very respectfully, youre, &c.

MORMON ISLAND, CAL.,
Sept. 29th, 1849.

To the Editors of the Pacific News:

GENTLEMEN:—I communicate for insertion in your paper, the death of AUGUSTUS BIXBY, of Newton, Mass., and a member of the Wachusett company, here. He died on the 28th, at 7 o'clock, A. M., aged 36 years, after a sickness of two weeks of the dysentery and typhoid fever, having been in the country but a short time and worked but one week in the mines, then doing but little, as is generally the case with new beginners.

Convention Reports.

THE COMMITTEE ATPOINTED TO REPORT A PLAN FOR A CONSTITUTION HAVING HAD UNDER CONSIDERATION THAT PORTION RELATIVE TO A JUDICIARY SYSTEM AND NOT AGREEING THEREIN——THE MAJORITY RESPECTFULLY RETORT THE FOLLOWING IN LIEU OF THE FIRST SIX SECTIONS OF THE MAJORITY REPORT.

ART. V.

Judicial Department.

SEC. 1.—The Judicial Power of this State shall be vested in one Supreme Court, in Circuit Courts, in County Courts and in Justices of the Peace.

The Legislature may also establish operation courts vested with such jurisdiction as may be deemed necessary and be directed by law.

SEC. 2.—The Supreme Court shall consist of a chief Justice and two associate Justices any two of whom shall constitute a quorum.

SEC. 3.—The Justices of the Supreme Court shall be elected by the qualified electors of the State at the general elections and at the first General election one Justice of the Suprmee Court shall be chosen whose term of office shall be two years, one for four and one for six years, after which one Justice of the Supreme Court shall be chosen every two years for the term of six years, and the one having the shortest time to serve shall be the Chief Justice.

SEC. 4.—The Supreme Court shall have general Jurisdiction in all cases in law and equity, co-extensive with the State under such restrictions and regulations as may from time to time be prescribed by law and shall have power to issue writs of Error and Supersedeas, Certiorari and Habeas Corpus, Mandamus and Quo warrants and to hear and determine the same and said Justice, shall severally have power to issue any of the aforesaid writs and shall be conservators of the Peace throughout the State.

SEC. 5.—The Justices of the Supreme Court shall have a general superintending control over all inferior and other courts of law and equity.

SEC. 6.—The State shall be divided by the Legislature into a convenient number of Circuits not less than three nor more than six, subject to alteration from time to time as the public good may require; for each of which a circuit judge shall be appointed by the joint vote of the Legislature at its first session, who shall hold his office for two years after which said judges shall be elected by the qualified electors of their respective circuits at the general election for the term of five years, and shall possess the powers of the justices of the Supreme Court at *Chambers*, and shall try all issues joined in the Supreme Court and shall have exclusive jurisdiction of all crimes amounting to a felony at common law, and such equity powers as the legislature may by law direct, subject to the appellate jurisdiction of the Supreme Court and shall be conservators of the Peace within the circuit for which they shall have been elected.

All of which is submitted,

(Signed)

R. H. DIMMICK, Chairman.

THE COMMITTEE APPOINTED TO REPORT A PLAN OF A STATE CONSTITUTION, HAVE HAD THE SAME UNDER CONSIDERATION, AND RESPECTFULLY FURTHER REPORT THE FOLLOWING:

ARTICLE VI.

Militia.

SEC. 1. The Legislature shall provide by law for organizing and disciplining the Militia, in such manner as they shall deem expedient, compatible with the constitution and laws of the U. S.

SEC. 2. The Legislature shall provide for the efficient discipline of the officers, commissioned and non-commissioned, and musicians, and may provide by law for the organization and discipline of volunteer companies.

SEC. 3. Officers of the militia shall be elected or appointed in such manner as the Legislature shall, from time to time, direct, and shall be commissioned by the Governor.

SEC. 4. The Governor shall have the power to call forth the militia to execute the laws of the State, to suppress insurrection, and to repel invasion.

ARTICLE VII.

State Debts.

SEC. 1. The Legislature shall not, in any manner, create any debt or debts, liability or liabilities, which shall singly, or in the aggregate, with any previous debt or liability, exceed the sum of one hundred thousand dollars, except in case of war, to repel invasion, or suppress insurrection, unless the same shall be authorized by some law for some single object or work, to be distinctly specified therein, which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability, as it falls due, and also to pay and discharge the principal of such debt, or liability, within twenty years from the time of the contracting thereof, and shall be irrepealable, until the principal and interest thereof shall be paid and discharged; but no such law shall take effect, until at a general election it shall have been submitted to the people, and have received a majority of all the votes cast for and against it, at such election; and all money raised by authority of said law shall be applied only to the specific object therein stated, or to the payment of the debt thereby created; and such law shall be published in at least one newspaper in each judicial district, if one is published therein, throughout the State, for three months preceding the election at which it is submitted to the people.

ARTICLE VIII.

SEC. 1. The Legislature shall provide for the election, by the people, of a Superintendent of Public Instruction, who shall hold his office for three years, and whose duties shall be prescribed by law, and who shall receive such compensation as the Legislature may direct.

SEC. 2. The Legislature shall encourage, by all suitable means, the promotion of intellectual, scientific, moral and agricultural improvement. The proceeds of all lands that may be granted by the United States to this State for the support of schools, which may be sold or disposed of, and the five hundred thousand acres of land granted to the new States under an Act of Congress distributing the proceeds of the public lands among the several States of the Union, approved A. D. 1841, and all estates of deceased persons who may have died without leaving a will or heir, and also such per cent. as may be granted by Congress for the sale of lands in this State, shall be, and remain a perpetual fund, the interest of which, together with all the rents of the unsold lands, and such other means as the Legislature may provide, shall be inviolably appropriated to the support of common schools throughout the State: provided that the Legislature may, if the exigencies of the State require it, appropriate to other purposes the revenue derived from the five hundred thousand acres of land granted by Congress to new States, and also the rents and profits of all other unsold lands not granted by Congress for the support of education.

SEC. 3. The Legislature shall provide for a system of Common Schools by which a school shall be kept up and supported in each district, at least three months in every year; and any school district neglecting to keep up and support such a school may be deprived of its proportion of the public fund during such neglect.

SEC. 4. The clear proceeds of all fines collected in the several counties for any breach of the penal laws shall be exclusively applied, in the several counties in which said money is paid, or fine collected, among the several school districts of said counties, in the proportion to the number of inhabitants in such districts, to the support of common schools, or the establishment of libraries, as the Legislature shall, from time to time, provide by law.

SEC. 5. The Legislature shall take measures for the protection, improvement, or other disposition of such lands as have been, or may hereafter be reserved or granted by the United States, or any person or persons of this State for the use of a University; and the funds accruing from the rents or sale of such lands, or from any other source, for the purpose aforesaid, shall be and remain a permanent fund, the interest of which shall be applied to the support of said University, with such branches as the public convenience may demand, for the promotion of literature, the arts and sciences, as may be authorized by the terms of such grant. And it shall be the duty of the Legislature, as soon as may be, to provide effectual means for the improvement and permanent security of the funds of said University.

All of which is respectfully submitted.

(Signed) MYRON NORTON,
Chairman.

ARTICLE IX.

MODE OF AMENDING OR REVISING THE CONSTITUTION.

SEC. 1. Any amendment or amendments to this Constitution may be proposed in the Senate or Assembly, and if the same shall be agreed to by a majority of the members elected to each of the two houses of the Legislature, such proposed amendment or amendments shall be entered on their journals, with the yeas and nays taken thereon, and referred to the Legislature then next to be chosen, and shall be published for the three months next previous to the time of making such choice; and if in the Legislature next chosen, as aforesaid, such proposed amendment or amendments shall be agreed to by two-thirds of all the members elected to each House, then it shall be the duty of the Legislature to submit such proposed amendment or amendments to the people in such manner and at such time as the Legislature shall prescribe; and if the people shall approve and ratify such amendment or amendments by a majority of the electors qualified to vote for the members of the Legislature, voting thereon, such amendment or amendments shall become part of the Constitution.

SEC. 2. And if at any time two-thirds of the Senate and Assembly shall think it necessary to revise or change this entire Constitution, they shall recommend to the electors at the next election for members of the Legislature to vote for or against a Convention, and if it shall appear that a majority of the electors, voting at such election, shall have voted in favor of calling a Convention, the Legislature shall at its next session provide by law for calling a Convention to be holden within six months after the passing of such a law; and such Convention shall consist of a number of members not less than that of both branches of the Legislature.

By order of the Committee.

(Signed) MYRON NORTON,
Chairman.

PORTABLE SODA WATER.—We have received from Messrs. Geo. S. Wardle & Co., several bottles of pure super-carbonate of soda, prepared by J. W. Kelly, of New York. ALVESO.—The town of Alveso, situate at the head of the bay of san Francisco, will shortly be offered to the public in lots suitable for building purposes. The locality of this place possesses advantages of a nature so positive and apparent that a brief description must satisfy every one of the certainty of its becoming, ere long, a town of the highest importance. At the head of the great bay of san Francisco, on the Guadalupe river—a stream running directly through the centre of the town, and navigable at all seasons of the year to vessels drawing 12 feet of water—the depot and business headquarters of the two finest valleys in California—the santa Clara and Pueblo—where everything required for their already numerous population, must be received; convenient of access to the gold mines, and directly on the route between them and san Francisco; with a climate unequalled even in Upper California; with pure water; free from inundations at all seasons; leagues of woodland within a convenient distance, with mills which even now furnish lumber at one-third the price in san Francisco. The town of Alveso must grow into importance. The wants of the extensive country around, constantly increasing, require a commercial town at this point—the only one where such a town can be located.

The place will be immediately surveyed and laid out into lots of convenient size, by C. S. Lyman, Esq., surveyor, and maps will be published for the inspection of the public as soon as practicable. Contracts have been entered into for the erection of warehouses and buildings, and a substantial bridge is now being erected, connecting the two portions of the town: The title is perfect and indisputable, having been derived directly from the Mexican government, to persons who have since resided on the premises for nearly twelve years. Persons desiring to purchase will have preference in choice of lots in the order of the reception of their names by the undersigned. Address, post paid,

Head-Quarters, 10th, Mil. Department.
(Orders No. 33.)

REPRESENTATIONS having been made that many of the N. Y. Vols., entitled to transportation home, under the instructions of the Secretary of War, of October 9th, 1848, have failed to make their applications within the limits fixed by department Orders No. 25, current series, in consequence of their being at distant points, where the fact that these instructions had been given was not known, information is now given that the limit fixed in the order above referred to, is hereby extended to the first of December next, until which time, unless contrary instructions should be received from the War Department, transportation will be furnished to such as have been prevented, by sufficient reasons, from making their applications in due season.

Applications will be made to the Quarter master, at Department Head-quarters, Capt. E. K. Kane, who will cause the applicants to be enrolled upon their furnishing satisfactory evidence of their discharge from Col. Stevenson's regiment, and the customary transportation to be furnished so soon as the interests of the service will permit it.

Applicants will state the reasons that have prevented their making application in due season. The Quarter-master will judge of the validity of these reasons, and give sufficient notice of the sailing of any vessel on which transportation will be furnished.

THE CITY OF SOUTH SAN FRANCISCO.—The undersigned beg leave to inform the public that a survey of the city of south San Francisco has just been completed, and a map of the city is now to be seen at the store of De Boom, Vigneaux & Grisar, on Clay street.

The site is located on the Bay of san Francisco, two miles southerly of the city of san Francisco, and in plain sight of the shipping in the harbor.

The same depth of water which is found in the harbor of the city of san Francisco, is to be found in the harbor of the city of south san Francisco and along the bay between the two harbors.

The harbor is more securely protected from the wind than the harbor of the city of san Francisco, and ships of the heaviest burden may lay within a boats length of the land at many points, and quite close generally along the whole front of the city, affording the best facilities for discharging cargo..

The land rises in a gentle slope from the water, and is composed of a rich clay soil.

There are extensive stone quarries, and springs of fine running water are found on the face of the hill in many places.

The character of the soil always keeps the air free from dust or sand; the surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay.

A stream of the finest water in California, and sufficient in quantity to water both cities, and all the shipping that ever may lay in their harbors, forms the northern boundary of the city, and will be conducted into a reservoir for such purposes.

The only practicable route for a good road from the city of san Francisco to san Jose, will pass through south san Francisco, crossing the mouth of Mission creek and the mouth of the creek just alluded to.

From san Francisco to san Jose and Monterey is one of the best natural roads in the world, and passing on this road from south san Francisco, you travel along a beautiful valley of hard grass land to the puertesuelo, a distance of less than two miles.

Persons desious of seeing the city will go out on the old Mission road, and will find the Mission about half way.

It is but a short ride—go out and see for yourselves, and if you wish to purchase lots that will shortly equal in value those of the city of san Francisco, call on the subscribers at the store of De Boom, Vigneaux & Grisar.

JOHN TOWNSEND,
CORNEILLE DE BOOM.

P. S. On the first day of October the price of lots will be raised from one hundred dollars to one hundred and fifty dollars. xiieu

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, san Francisco. HIRAM GRIMES.

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been preparsd by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold, and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and san Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, san Francisco, and at the city of New York.

TOWN OF SUTTER.
(LATE SUTTERSVILLE.)

This town has has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and san Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES,
